#### About The St. Regis Vommuli Maldives Resort

The [St. Regis Maldives Vommuli Resort](http://www.stregismaldives.com), which opened in November 2016, is nestled on a private island in a secluded Maldivian atoll, amidst thriving marine life. Just 40 minutes from Male by seaplane, guests are transported into a newfound paradise in the Dhaalu Atoll.

The resort draws inspiration from nature itself. Designed by WOW Architects | Warner Wong Design (Singapore), the unusual contemporary design of The St. Regis Maldives draws inspiration from the natural setting of the resort. This is represented by the manta ray shaped lagoon villas, a signature bar in the shape of a whale shark, a lobster-inspired spa and a spiral shell shaped library.

There are six distinct dining venues, including an Asian specialty restaurant, a modern Italian restaurant that features a grand staircase, an underground wine cellar restaurant, a shack style

restaurant, a signature overwater bar that rolls out stunning views of dramatic sunset, and a pop-up restaurant in the middle of the resort. Additionally, guests can also enjoy the Iridium Spa, which presents six overwater treatment rooms, including two that are dedicated to healing Ayurvedic treatments. Spa guests can also enjoy a Blue Hole pool, which contains heated seawater with different water jets – a system with proven benefits to the body.
